

A close-up, artistic photograph of an hourglass. The hourglass is made of clear glass and is filled with fine, golden-brown sand. The sand is captured in mid-fall, creating a dynamic, blurred trail as it moves from the upper bulb to the lower bulb. The hourglass is positioned diagonally across the frame. The background is dark and out of focus, with some wooden textures visible, suggesting a rustic or antique setting. The lighting is warm, highlighting the texture of the sand and the glass.

A Matter of Time

***Why the Age of Creation
is Foundational***

The background of the image is a close-up of a stone wall. At the very top, there is a single course of reddish-brown bricks. Below this, the wall is constructed from large, irregular, light-colored stones with visible mortar joints. The lighting is soft, creating subtle shadows and highlights on the stone surfaces.

“One generation shall praise
your works to another,

And shall declare **your
mighty acts.”**

- Psalm 145:4

naturalism
atheism**

**What does the Bible
say about the age of
the Earth?**

What does the Bible say about the age of the Earth?

“ And God saw everything that he had made, and, behold, it was **very good**. And the evening and the morning were the sixth day.”

- Genesis 1:31

What does the Bible say about the age of the Earth?

“ For **in six days** the Lord made heaven and earth, the sea and all that in them is, and rested on the seventh day...”

- Exodus 20:11

And He answered and said unto them, *“Have you not read, that He which made them **at the beginning** made them male and female...”*

- Matthew 19:4

What does the Bible say about the age of the Earth?

“ This is the book of the generations of Adam.

In the day that God created man, in the likeness of God made he him; male and female he made them...and Adam lived 130 years and begat a son...”

- Genesis 5:1-32

Name	Year of Birth	Age at Birth of Son	Age at Death	Year of Death ²
Adam	0	130	930	930
Seth	130	105	912	1042
Enos	235	90	905	1140
Cainan	325	70	910	1235
Mahalaleel	395	65	895	1290
Jared	460	162	962	1422
Enoch	622	65	365 ³	987 ⁴
Methuselah	687	187	969	1656
Lamech	874	182	777	1651
Noah	1056	502	950	2006
Shem	1558	100	600	2158
Arphaxad	1658	35	438	2096
Salah	1693	30	433	2126
Eber	1723	34	464	2187
Peleg	1757	30	239	1996

Abraham	1948	100	175	2123
Isaac	2048	60	180	2228
Jacob	2108	—	147	2255

What does the Bible say about the age of the Earth?

“**In six days** the Lord made heaven and earth, the sea and all that is in them, and rested the seventh day.”

- Exodus 20:11

**What does the world
say about the age of
the Earth?**

Evolution Model

- Big Bang:
15 billion years ago
- Earth Forms:
5 billion years ago
- Chemical Evolution:
3 billion years ago
- Life diversifies:
1 billion years ago
- Man appears:
1 million years ago

What can science prove about the Earth's age?

Time = Amount/Rate

Amount = Measured - Initial - Contamination
Rate = Average over entire period

The Vast Majority of Dating Methods Indicate a Relatively Young Earth

“For every dating method indicating billions of years of earth history there are ten methods indicating the earth is far too young for evolution to have happened.”

- Dr. Russell Humphreys

A few of many young Earth dating methods

- Pressure remaining in oil deposits
- Decay of the Earth's magnetic field
- Supernovas found vs. occurrence rate
- Turbulence remaining in Saturn's rings
- Size of Mississippi river delta
- Concentration of elements in ocean
- World population growth
- Coral reef growth
- Amount of volcanic sediment
- Lack of new star formation
- Existence of short term comets
- Amount of cosmic dust in solar system
- Human fossil remains/graves
- Temperature of the earth
- Stalagmite growth rate
- Rate of coal formation
- "White hole" cosmology
- Helium in the earth's atmosphere
- Polystrata fossils
- Genetic code deterioration rate
- Carbon-14 still left in diamonds
- Oldest living plants
- Size of the fossil beds
- Clustered galaxies
- Helium in zircon crystals
- Erosion rate of the continents
- Internal heat of Io
- Tree ring chronology
- Concentration of salt in the ocean
- Moon activity/distance
- Sea floor sediment depth
- Cosmic dust accumulation on the earth
- Mutational load of biological life
- Size of the earth's human population
- Meteorites in the earth's sediment
- Cold Material in Earth's Mantle
- Polystrata fossils
- Average depth of topsoil
- Carbon-14 in level in organic matter
- Rate of human mutational changes
- Squashed radiohalos
- Salt in the dead sea
- Ice cap accumulation rate
- Age of Niagara Falls
- Sandstone intrusions
- Total coal volume on earth
- Purity of salt dome deposits
- Existence of distant spiral galaxies

Formation of Niagara Falls

- Falls eroding at a rate of 4-5 ft./yr.
- Falls are 37,000 ft. from lake Ontario
- Falls cannot be much older than 9000 years old
- Erosion shortly after the flood would have been much faster

Without acknowledging the FLOOD...

...geology is misinterpreted

This flood would have caused:

- *Fossils deposited worldwide*
- *Extensive layers of sedimentary rocks*
- *Massive coal and oil fields*
- *Widespread erosion features*
- *A subsequent ice age*

This t-Rex dinosaur bone, assumed to be 68 million years old, was found by Dr. Mary Schweitzer and was broken during removal from site.

Where are all the people?

- World population has historically doubled every 150 years
- This is independent of war, famine, disease, etc.
- $6 \dots 12 \dots 24 \dots 7 \text{ billion} = 30 \times$
- $30 \times 150 \text{ years} = 4500 \text{ years}$

Strength of the Earth's Magnetic Field

Radiometric Dating

Radiometric dating supposedly “proves” that the earth is billions of years old.

- Helium is from decay processes.
- Decay starts rocks so helium trapped there.
- With time helium permeates (leaks) out.
- The older the rock...the less helium!

Where the helium is located reveals the true age of the rocks.

There is a lack of helium in atmosphere

- The amount left in rock crystals indicates that the decay happened approximately 6000 years ago.
- Helium permeates out at a known rate
- Helium forms in rock by radioactive decay
- Total amount = 3.5×10^{12} kg
- Known input = 3.0×10^8 kg/yr
- Max age = 10,000 years

There is way too much helium in rock crystals

Genetic Deterioration

“It has long been acknowledged by geneticists that if the rate of deleterious mutations approached ONE PER GENERATION, long-term genetic deterioration would be a certainty.” ¹

- Muller, H.J. 1950. Our Load of Mutations. American Journal of Human Genetics, 2:111-176.

Estimated Mutations per Human Generation¹:

Mutation Type	Mutations/generation	Nucleotide changes/generation
1. Mitochondrial mutations	<1	<1
2. Nucleotide substitutions	100-300	100-300
3. Satellite mutations	100-300	100-300
4. Deletions	2-6 (or more)	300 - 3000
5. Duplications/insertions	2-6 (or more)	300 - 3000
6. Inversions/translocation	>1	Thousands?
7. Conversions	Thousands?	Multiple Thousands?
Total/person/generation	>1000 ?	> 10,000 ?

- Dr. J. C. Sanford, 2006, *Genetic Entropy & the Mystery of the Genome 3rd Ed.*, p. 42, FMS Publications

RadioCarbon Dating

- 1/2 of carbon disappears every 5730 years
- Modern equipment can measure 0.001% of modern levels (or 100,000 years)
- Every atom of radioactive carbon should be gone within 250,000 years

Yet there are enormous amounts of radiocarbon left

Why is there so much radiocarbon?

Material	Residual Carbon-14 (% of modern C-14)
Anthracite Coal	0.44 +/- 0.13
Fossilized wood	0.21 +/- 0.02
Natural Gas	0.17 +/-0.03
Shell (Mytilus edulis)	0.13 +/- 0.03
Graphite	0.1 +/- 0.01
Petroleum	0.1 +/- 0.05
Whale bone	0.18 +/-0.03
Charred wood	0.38 +/- 0.05
Wood	0.46 +/- 0.03
Marble	0.26 +/- 0.02
Fossil carbon dioxide	0.21 +/-0.06

**This
astounding
evidence for
a young
earth is
simply
ignored!**

Why is there so much radiocarbon?

Location	Residual Carbon-14 (% of modern C-14)
Opapa mine, Botswana	0.06 +/- 0.03
Lethakane mine, Botswana	0.05 +/- 0.02
Kimberley mine, South Africa	0.02 +/-0.03
Kankan placer, Guinea	0.03 +/- 0.03
Placer deposits, Southwest Africa	0.14 +/- 0.02 (ave. of 6 samples)

Carbon-14 Left with Time

On one hand is the evidence for our recent creation

- ❖ **Fresh tissue in dinosaur bones**
- ❖ **Carbon-14 still remaining in ancient artifacts/fossils**
- ❖ **Rapid buildup of genetic mistake in human genome**
- ❖ **Helium from radioactive decay still in granite layers**
- ❖ **Rapid decay of Earth's magnetic field**
- ❖ **Nature of geological rock layers**

On the other hand is the damage done by rejecting a straightforward Biblical understanding

- ❖ **The Bible cannot be understood to mean what it says**
- ❖ **God is responsible for billions of years of death**
- ❖ **Adam becomes a mythical symbol**
- ❖ **There couldn't have been a recent global flood**
- ❖ **The Bible is wrong about history, geology, biology...**
- ❖ **Why believe it about anything else?**

The Bible Can Be Trusted

Consummation

A close-up, artistic photograph of an hourglass. The hourglass is tilted, and fine, golden-brown sand is falling from the upper bulb into the lower bulb. The sand is captured in mid-air, creating a soft, blurred trail. The hourglass itself is made of clear glass, and the wooden frame holding it is visible in the background, showing a warm, natural wood grain. The lighting is warm and directional, coming from the upper left, which highlights the texture of the sand and the glass.

Time & the Domino Effect

Creation

DEATH

**Bible correct
about
moral truth**

Scoffers will come **in the last days** saying, “...all things have continued as they were from the beginning of creation.”

...they willfully forget...

by the word of God the earth was made out of water...and the world that then existed perished, being flooded by water.

II Peter 3:3-6
